

NINTH ANNUAL STATEMENT

OF THE

Trade and Commerce of Chicago,

FOR THE

YEAR ENDING MARCH 31, 1867,

REPORTED TO THE

CHICAGO BOARD OF TRADE,

BY

JOHN F. BEATY, SECRETARY.

---

CHICAGO:

HORTON & LEONARD, BOOK AND JOB PRINTERS,  
104 & 106 Randolph Street.

1867.

To JNO. C. DORE, Esq.,

*President of the Board of Trade of the City of Chicago;*

SIR:—I have the honor to submit the accompanying Report of the Trade in Chicago in Flour, Grain, Seeds, Provisions, Live Stock, Lumber, &c., for the year ending March 31, 1867.

The Report shows the shipments of Flour (reduced to Wheat,) and Grain, for the past year, to have been 66,736,660 bushels—an increase over the year 1865–66 of 13,524,436 bushels, and 10,252,550 bushels over and above the shipments of any other year in the history of Chicago.

There were packed, during the season just past, 672,769 head of Hogs, and 25,998 head of Cattle—an increase over last year of 131,977 of the former, and a decrease of 1,174 of the latter.

The receipts of Lumber were 730,057,168 feet; of Lath, 123,992,400 pieces; and 400,125,250 Shingles—showing an increase over the preceding year of 82,901,434 feet of Lumber, 57,897,300 pieces of Lath, and 89,227,900 Shingles.

The foregoing figures show our city to be steadily increasing in commercial strength, and the evidence of its prosperity is manifest in the great number of public and private improvements of a superior character continually being made.

Trusting the Report may meet the approval of the officers and members of the Board,

I am, Sir,

Your obedient servant,

JNO. F. BEATY, *Secretary.*

## REPORT OF THE DIRECTORS.

---

GENTLEMEN OF THE BOARD OF TRADE :

Your Directors beg leave to submit their Annual Report of the financial condition of the Board, and of their proceedings during the year past.

The actual indebtedness of the Board on the first of the year was..... \$9,212 16

There was received during the year as follows :

From Grain Inspection.....	\$55,380 36
From Annual Assessments.....	31,490 00
From Initiation Fees.....	1,120 00
From Table Rents.....	5,243 73
From sale of Annual Reports.....	264 00
From Second Clerk's Tickets.....	60 00
From Table Signs.....	14 00
From Arbitration Fees.....	967 30
From Appeal Fees.....	325 30

And there has been paid out as follows :

For deficit of 1865-66.....	\$9,212 16	
For Inspection and Inspection account.....	43,687 02	
For Market Reports.....	3,825 88	
For Annual Reports.....	2,117 04	
For sundry expenditures.....	1,994 10	
For profit and loss.....	3,776 50	
For Table Signs.....	171 00	
For War Fund.....	170 00	
For Arbitration Fees.....	917 48	
For Appeal Fees.....	252 43	
For expense account, including rent, heating, etc.....	30,570 13	
Cash in hands of Secretary.....	366 81	
Balance due Treasurer.. .....		\$2,195 86
	\$97,060 55	\$97,060 55
Balance due Treasurer.....		\$2,195 86
Less amount in Secretary's hands.....		866 81
Net deficit.....		\$1,829 05

At the commencement of the year the actual indebtedness of the Board was \$9,212 16, which with obligations afterwards assumed amounted to \$12,988 66. This amount has been paid, as is shown above, with the exception of \$1,829 05, which is the net deficit at the close of the year.

At our last annual meeting the rates of inspection, together with the subject of annual assessments, remained as fixed by the Directors, the latter being Twenty-Five Dollars. The amount of grain received during the year was much greater than was anticipated, and consequently the amount of money received for inspection exceeded our expectations. If there appeared any probability that as much grain would be received during the ensuing year as was received last year, the Directors would recommend a reduction of the rates of inspection, but they are led to believe, from information received from all parts of the grain growing districts, that there is a very small quantity of wheat to come forward; and it is also believed that much less corn will be received than usual, on account of the damaged condition of the crop. These considerations prevent the Directors from recommending any change in rates of inspection at present.

The membership of the Board in 1864 was 1,462; in 1865 it was 1,401; and last year it was 1,259. It is not surprising that the membership of the association should have diminished during the last two years, considering the increase of the annual assessment. Last year the annual assessment was based on a supposed membership of 1,200, though proved to be 1,259. This year, in view of the probability that the rates of inspection will not pay the expenses of inspection until after the harvest, the Directors have deemed it advisable to fix the annual assessment at Thirty-Five Dollars.

The current expenses of the year have not been materially increased by extraordinary expenses, and, unless some unforeseen exigency shall arise, the Board may reasonably hope that the annual assessment, after the present year, will rather be diminished than increased.

The Board—not unmindful of those who have been taken away—have great reason for thankfulness for the general good health of its members.

The Commercial Committee, established at our last annual meeting, has failed to accomplish the object intended. It numbers twenty-one, selected to represent as many important interests in the city. The committee is, therefore, widely scattered; it requires eleven members to make a quorum, and it has proved difficult to get this number together. The Directors recommend that the number of the committee remain the same, and that this Board make five of said committee a quorum for the transaction of business.

The year, although inauspiciously begun, has proved to be a year of more than ordinary prosperity; every branch of industry has been amply rewarded. The business of the Board keeps pace with the rapid development of the country. The iron arms of Commerce are continually extending in every direction, from Chicago as a common centre, and yet they are scarcely adequate to the demand for transportation. The prospective business of the Board is limited only by the future development of the Northwest. In the country's prosperity and adversity our progress has been rapid, and, viewing the future in the light of the past, the Directors improve the present opportunity to congratulate the Board on the prospect before them.

Respectfully submitted,

In behalf of the Directors,

J. C. DORE, *President.*

CHICAGO, April 1, 1867.

# REPORT OF THE CHIEF INSPECTOR OF GRAIN.

---

GRAIN INSPECTOR'S OFFICE, March 31, 1867.

*To the President and Directors of the Chicago Board of Trade :*

GENTLEMEN :—I herewith present my Annual Report for the year ending this day.

There has been inspected into store of Winter Wheat: Extra, 14 car loads; No. 1, 163 cars; No. 2, 120 cars; and of Rejected, 18 cars. Of Spring Wheat: Extra, 185 cars; No. 1, 6,560 cars; No. 2, 15,785 cars; and of Rejected, 5,719 cars. Of Corn: No. 1, 44,180 cars; No. 2, 14,611 cars; and of Rejected, 4,240 cars. Of Oats: No. 1, 4,563 cars; No. 2, 7,926 cars; and of Rejected, 560 cars. Of Rye: No. 1, 2,873 cars; No. 2, 1,306 cars; and of Rejected, 209 cars. Of Barley: No. 1, 86 cars; No. 2, 1,528 cars; and of Rejected, 1,433 cars, making the total number of cars of grain inspected into store, 112,079, an increase over last year of 25,374 cars.

Of Canal Grain, there has been inspected into store, 16,900 bushels No. 1 Spring Wheat; 26,315 bushels No. 2, and 7,500 bushels Rejected. Of Corn: 8,283,872 bushels No. 1; 778,250 bushels No. 2, and 416,800 bushels Rejected. Of Oats: 454,800 bushels No. 1; 797,362 bushels No. 2, and 111,900 bushels Rejected. Of Rye: 48,150 bushels No. 1; 13,450 bushels No. 2, and 4,750 bushels Rejected. Of Barley: 12,600 bushels No. 2, and 850 bushels Rejected, all of which was contained in 2,046 boats.

The details of the foregoing inspection, together with the amount inspected from store, and the financial affairs of this office will be found with your Secretary.

The system of warehouse inspection adopted December, 1865, has met with general and deserved approval. My opinion is, that it cannot be dispensed with, while your board continue to superintend the inspection of grain. It is proper in this connection to state that your inspectors have been cordially sustained by all the parties to this great interest, in no one instance have they or either of them been interfered with while in the discharge of their duties. It is unquestionably true that mistakes in the inspection of grain have occurred, but they have been of a character that could not be avoided, neither can they in the future be avoided, unless damaged grain is classed as rejected.

I beg leave, through you, gentlemen, to present this board my sincere thanks for the courtesy which has distinguished its members in their intercourse with this office.

Very respectfully, your obedient servant,

T. T. GURNEY,

*Chief Inspector.*

# GRADES OF GRAIN AND RULES OF INSPECTION

ADOPTED BY THE

BOARD OF TRADE OF THE CITY OF CHICAGO,

AND TO TAKE EFFECT ON THE TWENTIETH DAY OF AUGUST, 1866.

---

## WHEAT.

### WINTER WHEAT.

EXTRA WHITE.—To be pure white, sound, plump and well cleaned, and strictly choice milling Wheat.

No. 1 WHITE.—To be pure white, reasonably clean, sound and free from other grain.

EXTRA RED.—To be pure Winter Wheat, red, or red and white mixed, sound, plump and well cleaned, and strictly choice milling Wheat.

No. 1 RED.—To be pure Winter Wheat, red, or red and white mixed, sound and free from other grain.

No. 2 WINTER.—To include merchantable Winter Wheat, not good enough for No. 1.

REJECTED WINTER.—All Winter Wheat very dirty, or so much damaged from any cause as to make it unfit for flouring.

### SPRING WHEAT.

EXTRA SPRING WHEAT.—To be sound, plump and well cleaned, and strictly choice milling Wheat.

No. 1. SPRING.—To be reasonably clean, sound and free from other grain.

No. 2 SPRING.—To include merchantable Spring Wheat not good enough for No. 1.

REJECTED SPRING.—All Spring Wheat, very dirty, or so much damaged from any cause as to make it unfit for flouring.

“Black Sea,” in no case to be graded higher than No. 1 Spring; and “Rice Wheat,” no higher than No. 2; “Hard Pfife,” though in other respects “Extra,” will be graded No. 1. All Wheat to be weighed and entered on Inspector’s books.

## CORN.

WHITE.—To be white, and in all other respects to be No. 1 Corn.

YELLOW.—To be yellow, and in all other respects No. 1 Corn.

No. 1.—To be sound, dry, plump and well cleaned.

No. 2.—To include all other Corn, dry and merchantable, and reasonably clean.

REJECTED.—All wet, very dirty, hot and otherwise badly damaged Corn, unfit for warehousing.

## RYE.

No. 1.—To be sound, plump, and well cleaned.

No. 2.—All Rye not included in No. 1, that is not, in the judgment of the Inspector, unmerchantable.

REJECTED.—All unsound Rye, that from any cause, shall be deemed unmerchantable, and unfit for warehousing.

## OATS.

No. 1.—To be sound, free from other grains, and well cleaned.

No. 2.—All other Oats not unmerchantable.

REJECTED.—All Oats unsound, or from any cause unmerchantable, and unfit for warehousing.

## BARLEY.

EXTRA BARLEY.—To be plump, bright, clean, sound and free from other grain.

No. 1.—To be reasonably clean, sound and free from other grain.

No. 2.—To include merchantable Barley, not good enough for No. 1.

REJECTED.—Unsound, unmerchantable, unfit for malting or warehousing.

---

## RULES.

All Inspectors must make their reasons for grading grain, when necessary, fully known by notations on their books.

At a meeting of the Board of Directors of the Chicago Board of Trade, the following recommendations were adopted as the Rules of the Board.

*First*—That all Grain arriving in bulk be inspected and received into the house for such grade only as the Inspector shall decide, except when sold on the track for grinding, city consumption, or shipment, and the Inspector shall in no case make the grade above the lowest quality found in any lot of Grain, when it has evidently been mixed or “doctored” with a view of changing the grade, and that our warehousemen be requested to refuse all bagged Grain which shall have been bagged for this express purpose, and that all our railroad companies be requested to prohibit all bagging on their tracks, except for local consumption,

*Second*—That it shall be made the duty of all Inspectors of Grain to report to the Inspection Committee all attempts to defraud our inspection system. They shall report in writing every instance when warehousemen deliver or attempt to deliver Grain of a lower grade than that called for by the warehouse receipt. They shall also report any and every attempt of a receiver or shipper of Grain improperly to instruct or in any way influence the action or opinion of the Inspectors, and also all other attempts to defraud the inspection system, and when the charges shall be sustained, it shall be the duty of the Inspection Committee to put the same on the bulletin board of the Exchange Rooms.

It shall be the duty of the Chief Inspector to keep a record of the weight of Grain inspected into and out of each warehouse, which record shall be open to the inspection of any member of the Board during business hours, and that he report daily the average weight of the receipts and shipments of each grade into and out of warehouse, which report shall be posted on the bulletin board.

# CLASSIFICATION OF FLOUR

## AND RULES OF INSPECTION

ADOPTED BY THE

BOARD OF TRADE OF THE CITY OF CHICAGO.

---

*First.* SOUND.—To be strictly sound, free from any and every defect or fault causing either smell or taste.

*Second.* WEEDY.—Flour made from Wheat that has come in contact with a noxious weed, imparting an unpleasant smell, which is supposed will cook out.

*Third.* UNSOUND.—All Flour not “Sound” or “Weedy,” whether the unsoundness is derived from the condition of the Wheat, or has originated in the Flour. The Inspectors are required to note on their certificates the character of the unsoundness, such as *musty, hard sour, soft sour, or slightly unsound*,—the latter explanation of the unsoundness being intended to indicate that the Flour will probably work sound for immediate use, and is slightly depreciated in value.

All Flour that inspects “Sound” and full weight shall be branded, and none other; except when part of the lot of “Extra” proves so far below sample as to be a clearly different grade, the Inspectors may omit branding the barrels that are below grade; and it shall be the duty of the Inspectors, when working to a sample, to state on their certificate the number of barrels above or below the sample, and have the sample or samples of the same, which the parties may examine; also to state on their certificate, when the flour is “unsound” or “weedy,” the number of barrels of each description, and also, when practicable, the number of barrels that are so stained or out of condition as to depreciate the market value of the Flour. When Flour has been overhauled and cleaned on account of being wet, the Inspectors shall note on the certificate “wet and cleaned,” either “by Inspector” or “by Owner,” as the case may be. The Inspectors shall satisfy themselves in regard to the weights, and in case they deem it necessary to strip some of the Flour, they shall be entitled to “twenty-five (25) cents for each barrel so stripped (if it proves to be short weight) in addition to the regular fee of two cents per barrel for inspecting and branding. The charge of stripping shall be paid by the seller. No certificate shall be issued for a part of a lot of Flour inspected, without the consent of both the buyer and seller. The Inspectors shall only be liable to damage for any discrepancy between the Flour for which a certificate is issued and the sample which they retain of Flour so inspected, unless the buyer hands them the sample to inspect by.

*Rules for the Adjustment of Short Weight of Flour, in the absence of any special understanding between buyers and sellers.*

*First*—Flour shall be sold on the basis of one hundred and ninety-six pounds to the barrel.

*Second*—In case of short weight, the buyer shall be allowed for such shortage at the rate he pays, and three-fourths of a cent per pound on same for freight, and in addition, five (5) cents per barrel for the expense of re-filling.

CHICAGO, May, 1865.

## INSPECTION OF PROVISIONS.

---

### DIRECTIONS FOR CUTTING, PACKING AND CURING PORK AND BEEF, AND RULES REGULATING THE SALE OF THE SAME.

The following rules for examination and inspection of provisions, as adopted by the Pork Packers' Association, have also been adopted by this Board:—

**EXAMINATION.**—To provide for the examination of provisions sold as “standard,” it shall be the duty of the Inspector, on receiving notice, to go to any packing-house or warehouse in the city, to examine provisions in such quantities as may be required; selecting the same in such a manner from the lot specified, as in his judgment will give a fair sample of the whole. If, upon examination, it is found in all respects up to the standard, according to classification of grades herewith adopted, he shall issue certificate to that effect.

When necessary to remove property for the convenience of examination, it shall be the duty of the Inspector to send for the same, that a fair sample may be obtained. In no case should a certificate be granted on samples delivered by the seller.

The Inspector shall keep a record, in detail, of every examination he may make, that he may be qualified to testify positively in the event of a dispute; and should any portion, by examination or inspection, at or previous to time of removal from place of sale, prove to be different in character, the seller shall be responsible for difference.

The Inspector shall be entitled to receive, as compensation for examining provisions, five dollars (\$5.00) for the first five barrels, and twenty-five cents for each additional barrel examined, payable by the buyer if “standard,” and by the seller if rejected—and cartage, when removed.

**INSPECTION.**—It shall be the duty of the Inspector, as requested by owner, either at any packing-house, warehouse, or in yards provided by the Inspector, to overhaul and inspect provisions according to the classification and quality authorized for standard packing; two hundred pounds of meat, with abundance of salt, to be repacked into each barrel, and cooperage to be put into good order; each barrel of provisions that is sound, sweet and free from every defect, to have grade and date of inspection branded thereon, and any portion that is defective, to be branded, in like manner, “rusty,” “sour,” or “tainted,” as the case may be, across the regular inspection brand.

**MESS PORK.**—Shall be packed from sides of well fattened hogs, cut into strips not exceeding six and a half ( $6\frac{1}{2}$ ) inches wide, and flanked according to diagram, as nearly as possible, and not back strapped; 196 pounds of green meat, numbering not over sixteen pieces, including only the regular proportion of flank and shoulder cuts. Four layers to be packed into each barrel, with not less than 40 pounds Turks Island, St. Ubes, or Trepanni, or 45 pounds of other good qualities of foreign or domestic coarse salt, and clear brine as strong as salt will make it. (*See Plate No. 1.*)

**CLEAR PORK**—Shall be packed from sides of extra heavy, well fattened hogs, cut, selected and packed in the same manner as Mess Pork. The backbone and half the rib next the backbone to be taken out.

**EXTRA CLEAR PORK**.—Same as clear, except that all the rib and backbone must be taken out.

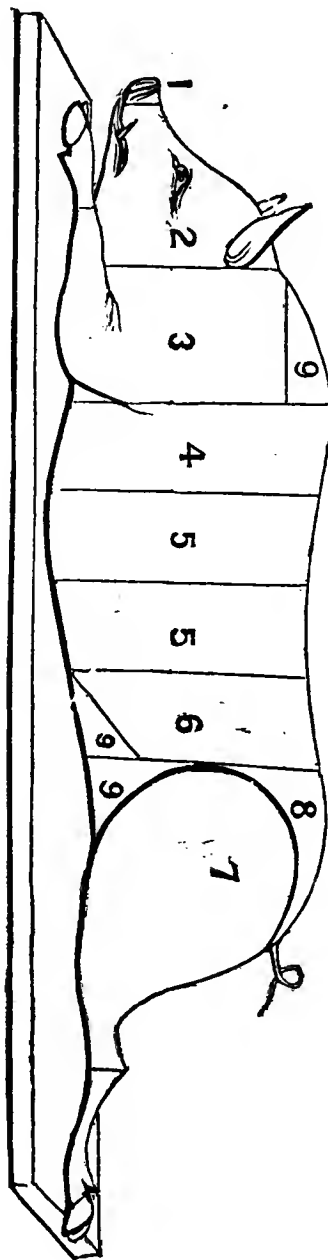

**MESS ORDINARY, OR THIN MESS**.—Of hogs reasonably well fattened, too light for Mess Pork, cut, selected and packed in the same manner as Mess. No restriction as to the number of pieces to the barrel.

**RUMP PORK**.—Rumps should be trimmed with only enough taken off to make them neat and smooth; the tails cut off close. Each barrel to contain 200 pounds of green meat, packed with the same quantity and quality of salt as Mess Pork.

### PLATE NO. 1.

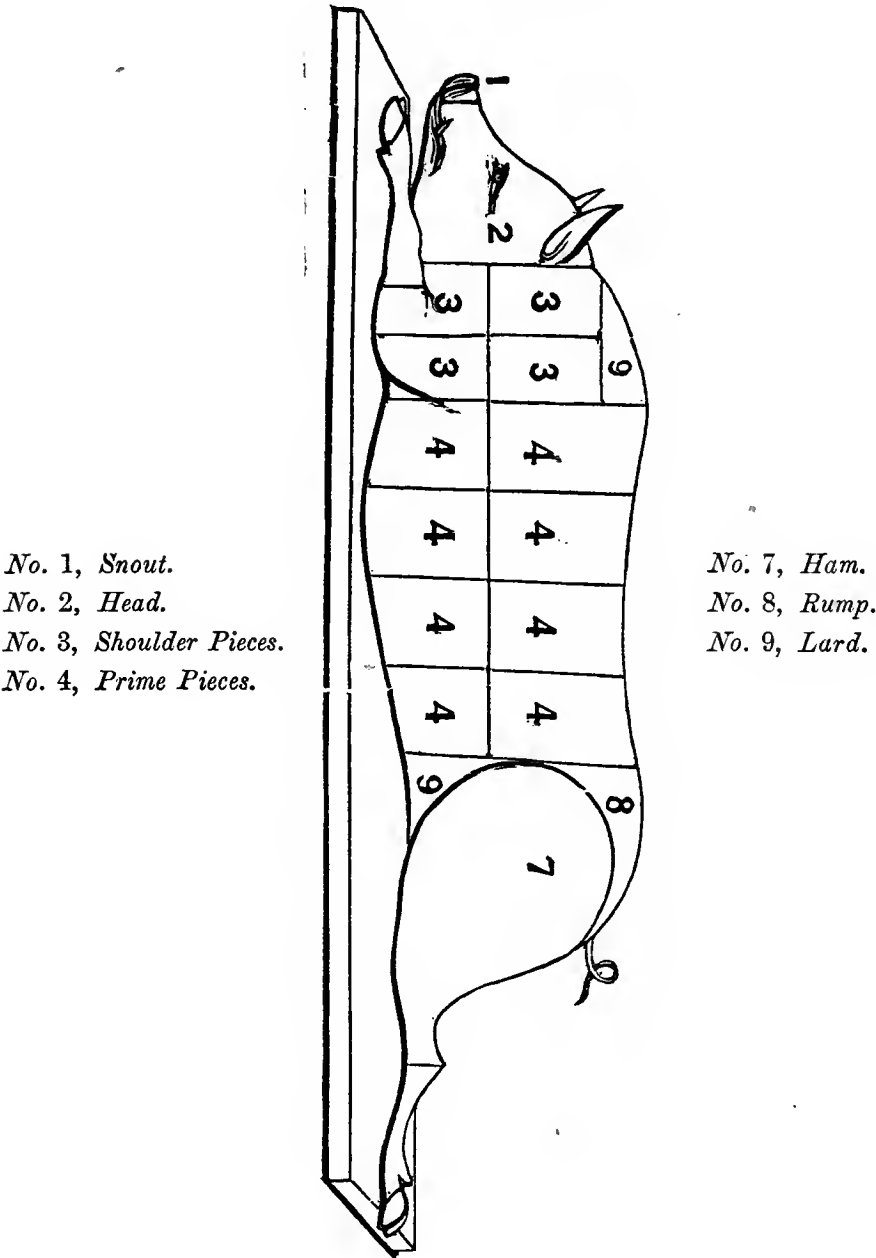

No. 1, *Snout.*  
 No. 2, *Head.*  
 No. 3, *Shoulder.*  
 No. 4, *Shoulder Cut.*  
 No. 5, *Middle Cut.*

No. 6, *Flank Cut.*  
 No. 7, *Ham.*  
 No. 8, *Rump.*  
 No. 9, *Lard.*

PRIME PORK—Shall be packed with a header of side cuts, the regular width, three half heads. It may have three rumps, and the balance shoulder cuts. The shoulders should have the rib in them, and cut into three pieces each, according to the diagram, the foot to be cut off above the knee, and the shank cracked near the shoulder. Head to be split through the brain and tongue; snout and ears cut off, and brains removed. Each barrel to contain 200 pounds of green meat, and to be packed with the same quantity and quality of salt as Mess Pork; heads to be soaked before being packed.

PLATE NO. 2.

EXTRA PRIME PORK—Shall be made from heavy, untrimmed Shoulders, cut into three pieces, according to the diagram; the leg to be cut close to the breast, to be packed 200 pounds green meat into each barrel, with the same quantity and quality of salt as Mess Pork.

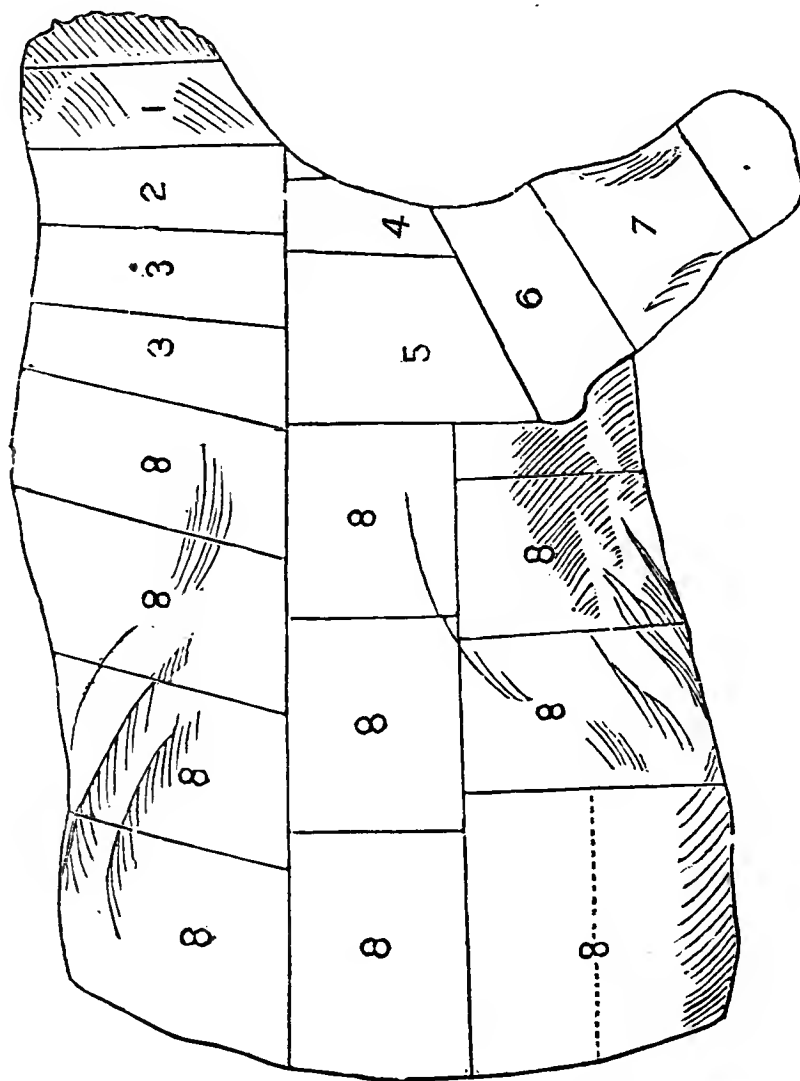

**PRIME MESS PORK**—Shall be made of the shoulders and sides of nice, smooth, fat hogs, weighing from 120 to 170 pounds each, net, regularly cut into square pieces, as near four pounds each as possible, the shank to be cut off close to the breast, each barrel to contain 200 pounds green meat, in proportion of twenty pieces of shoulder and thirty pieces of side cuts, and to be packed with the same quantity and quality of salt as Mess Pork, with the addition of four ounces of saltpeter. The prime pieces should be cut free of the blade bone. The shoulder pieces not to exceed ninety pounds in each barrel. It may also be packed with twenty pounds (20 lbs.) Turks Island, St. Ubes or Trepanni, or twenty-five pounds (25 lbs.) other good domestic or foreign coarse salt, and shall pass as "Light Salted Prime Mess Pork," provided it is in all other respects cut and packed as full salted Prime Mess Pork.

When re-salted, the brine shall be drawn off and new brine added.

(See Plate No. 2.)

**PICKLED HAMS AND SHOULDERS.**—The number of pieces, and green weight, must be branded on the head of each tierce.

PLATE NO. 3.

No. 1, Neck.

No. 2, Leather Chuck.

No. 3, Chuck.

No. 4, End of Sticking Piece.

No. 5, Shoulder of Mutton.

No. 6, Shoulder Clod.

No. 7, Shin.

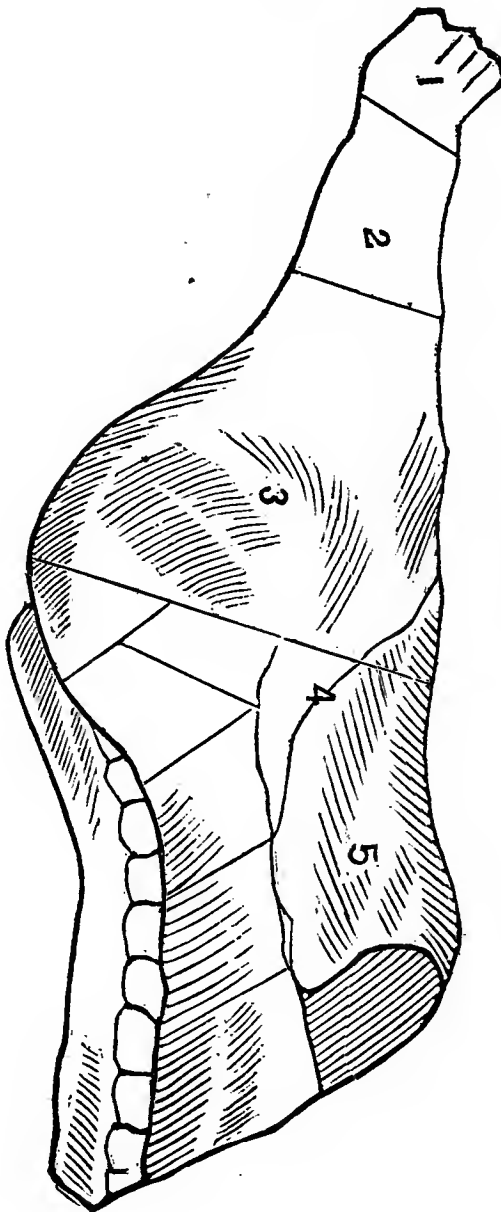

No. 8, Mess Pieces.

The dotted line in the diagram indicates that the flank piece is not to be cut entirely through, but only sufficiently to allow it to fold so as to present a thick appearance.

**MESS BEEF**—Shall be packed from well fattened cattle, weighing 450 pounds and upwards, net, and cut as near 10 pound pieces as practicable, excluding the leg and rand of the hind quarter, shin and shoulder clod, and 8 pounds of the neck from the fore quarter; and shall be packed in regular provision packages, with at least twenty pounds of coarse Turks Island, St. Ubes, Syracuse, Trepanni, or other good coarse salt, with at least four ounces saltpeter, and pickle as strong as salt will make it. (*See Plate No. 3.*)

**EXTRA MESS BEEF**—From well fattened cattle, shall be cut and packed the same as Mess Beef, from cattle weighing 500 pounds and upwards, net. (*See Plate No. 4.*) The cooperage in all cases to be of good and well seasoned material, and in good condition. The date of packing to be branded on the head of each of the above qualities of Pork and Beef.

PLATE NO. 4.

No. 1, *Leg.*  
No. 2, *Leg Rand.*  
No. 3, *Round.*

No. 4, *Thick Flank.*  
No. 5, *Thin Flank.*

**RULES OF SALE.**—All barreled provisions offered for sale as “standard,” in this market, must be cut, selected and packed, in all respects, as to quality and condition, equal to the foregoing classification.

Unless otherwise stipulated, at all sales made of any of the above grades of provisions represented as “standard,” the seller shall be bound to fulfil his sale by the delivery of the quality called for by such sale, which, on examination by the Inspector of the Association, has been certified by him to have been packed according to the above classification, and is, at time of sale, in good, merchantable condition in every respect, and has sufficient salt in each barrel to preserve the meat for a reasonable time. Provisions from which any surplus weight has been removed, cannot afterwards be classed as standard.

Any sales by which a particular packer’s brand is named, which does not pass examination, the buyer shall then elect, at his option, either to take the lot named at price agreed upon, after being regularly inspected at cost of seller, or to require that some other standard brand be substituted. But the buyer shall receive either the one or the other.

**COOPERAGE.**—There shall be appointed by the Association an Inspector of Cooperage, who shall inspect all provision cooperage submitted to him according to the following standard:

Beef and Pork Barrels shall be made of thoroughly seasoned White Oak lumber, free from objectionable sap; staves not less than  $\frac{1}{2}$  inch thick and 29 inches long; heads 18 inches,  $\frac{5}{8}$  of an inch thick in center, and  $\frac{3}{8}$  at bevel; hoops, Hickory or White Oak; barrels not less than 11-16 covered.

Tierces for Hams, Beef or Lard, 32 inches long,  $20\frac{1}{2}$  inch head; quality of staves and hoops same as on barrels; staves not less than  $\frac{5}{8}$  thick; heads same as Pork barrels—hooped, 11-16 covered.

**INSPECTORS’ FEES.**—Inspectors’ Fees, two cents for each barrel or tierce, payable by seller.

**WEIGHTS AND TARES.**—In the absence of agreement to the contrary, the following rules shall govern weights and tares:

Pickled Hams and Shoulders—one per cent. to be allowed for drainage.

Bulk Meats—salt being struck off but not swept, one per cent. tare to be allowed.

Lard—actual tare to be allowed.

# RULES REGULATING THE INSPECTION OF LUMBER

ADOPTED BY THE

BOARD OF TRADE OF THE CITY OF CHICAGO,

1867.

---

## I. FIRST CLEAR.

Not less than twelve (12) inches in width, and no imperfections allowed, unless fourteen (14) inches wide or upwards. Will then allow imperfections equal to sap one (1) inch on one side, extending the whole length of the piece, on pieces fourteen (14) inches wide and well manufactured, but the face side must be perfect. As width increases will allow larger imperfections in proportion to the width, but not imperfections enough to decrease the value below the above described piece.

## II. SECOND CLEAR.

Not less than ten (10) inches in width, and perfect up to twelve (12) inches wide. Will then allow imperfections equal to sap one (1) inch on one side of the whole length of the piece, if well manufactured—face side perfect. As width increases will allow other or larger imperfections in proportion to the width, but not imperfections enough to decrease the value below the above described piece.

## III. THIRD CLEAR.

Not less than ten (10) inches in width, of poorer grade than second clear, but of more value than common. Lumber that can be cut up for use one-half clear. The imperfections in this quality should not exceed 50 per cent. over those allowed in second clear.

All lumber from  $1\frac{1}{4}$  to 2 inches thick, and from 8 to 10 inches in width, and strictly clear, shall be classified with this grade.

## IV. CLEAR FLOORING.

To be one and one-sixteenth ( $1\frac{1}{16}$ ) inches thick, six (6) inches wide, and no imperfections. Clear flooring, rejected on account of thickness, shall be classed with common flooring.

## V. SECOND CLEAR FLOORING.

To be in thickness and width same as clear flooring, and will allow of one small knot or sap half ( $\frac{1}{2}$ ) an inch on one side, with clear face.

## VI. COMMON FLOORING.

Should be six (6) inches in width, and one and one-sixteenth ( $1\frac{1}{16}$ ) inches thick. Width uniform; small sound knots; free from rot shakes and splits. Second clear and common flooring, rejected on account of thickness, shall be classed as common lumber.

## VII. CLEAR SIDING.

MILL SAWED.—To be plump half ( $\frac{1}{2}$ ) inch thick, six (6) inches wide, and no imperfections.

## VIII. SECOND CLEAR SIDING.

MILL SAWED.—Will allow of one small knot, size of a dime, or sap one (1) inch in width on one edge. Thickness and width same as clear siding.

## IX. COMMON SIDING.

MILL SAWED.—The same as clear siding as regards thickness and width. The piece not to allow of over six (6) small knots, size of a dime, or sap not to exceed two inches on one edge, or knots in proportion to sap.

## X. COMMON LUMBER.

Including all boards, plank, joist, scantling, timber, fencing, and 4 and 5 inch strips, that are of a general sound character, well manufactured, and not included in foregoing qualities. Boards and planks should be square edged on one side at least, plump thickness, and have no large, loose knots nor bad shakes. In wide boards—say twelve (12) inches and over—will allow a straight split one-sixth ( $\frac{1}{6}$ ) the length of the piece, when otherwise sound. Fencing should be of good sound character; pieces that will not break easy, six (6) inches wide, one and one-sixteenth inches in thickness. Scantling, joists and timber should not have imperfections that would weaken the piece so that it cannot be used for substantial building purposes—plump and uniform in width and thickness. Timber should be measured at the small end, and, if much wane on the piece, reasonable allowance made for it.

## XI. CULLS.

A quality that cannot be received into any of the foregoing, consisting of even lengths of ten (10) feet and upwards, and so imperfect as not fit for ordinary uses without waste.

## XII. MILL CULLS.

Worthless or refuse lumber.

## GENERAL REMARKS.

All tapering pieces of lumber to be measured one-third ( $\frac{1}{3}$ ) the distance from the narrow end, when twelve (12) inches and over in width at the center, and when less than twelve (12) inches wide in center, to be measured at the narrow end. Any fractional part of a foot of lumber, board measure, shall not be counted, except in scantling and joist. All lumber to be measured in even lengths (except culls), from twelve (12) to thirty (30) feet, inclusive, in length; and above that length, timber shall be counted for what it will measure.

Culls commence ten (10) feet in length, and then measure same as other qualities. The manufacture should be taken into consideration in all qualities, and, if badly manufactured, should reduce the grade.

Pieces of lumber that have auger holes near the ends should be measured for length between the holes, if twelve (12) feet and over, and what it so measures be called in its proper quality; if auger holes in the center, as well as at the ends, should go into culls and be measured full.

Norway pine lumber shall not be included in the clear qualities of the above rules.

## XIII. STRAIGHT MEASURE.

All cargoes sold under straight measure shall consist of well manufactured lumber twelve feet and over, and where, by imperfection of manufacture, such lumber is reduced in grade so as not to answer the purpose for which it was intended, it shall be measured at only one-half the amount in the piece; and all pieces containing auger holes, if fourteen (14) feet in length and over, and bored only at the ends, shall be measured in full, excluding two feet in length of the piece; if bored in the center, it shall be measured for only one-half the amount in the piece. All lumber less than twelve (12) feet to be a subject for special contract between the parties. Mill culls excluded in all cases. All boards and strips to be at least plump one-inch thick. Joists and scantling, plump two or three inches thick.

## XIV. SHINGLES.

## PINE OR CEDAR—SAWED OR SHAVED.

*Warranted A*—Shall be sixteen (16) or eighteen (18) inches in length, not less than three-eighths ( $\frac{3}{8}$ ) of an inch thick at the butt, and none less than three (3) inches in width; all perfect.

*No. 1*—Shall be sixteen (16) or eighteen (18) inches in length, not less than one-third ( $\frac{1}{3}$ ) of an inch in thickness; may admit of forty (40) shingles in M., if perfect, less than three (3) inches in width, or same number of clipped—clips not to exceed three (3) inches. All shingles to be smoothly sawed or shaved, and packed in good order.

*Culls* are a quality manufactured from winding, worm-eaten, shaky or dry-rot timber, badly manufactured, or less than sixteen (16) inches in length.

It is recommended that one-fourth ( $\frac{1}{4}$ ) M. bunches be packed in bands twenty (20) inches in length, with twenty-five (25) courses; one-half ( $\frac{1}{2}$ ) M. bunches in twenty-five (25) inch bands, with forty (40) courses.

Shingles shall always be full count, and pay shall be collected only for the number of shingles actually delivered, regardless of the pretended number contained in each package or bundle; or, in other words, there shall be exacted in every instance, for a thousand shingles, the equivalent of one thousand pieces four inches wide.

## XV. LATH.

No. 1—Shall be four (4) feet (no more, no less) in length, not less than three-eighths ( $\frac{3}{8}$ ) of an inch thick, and one and a half ( $1\frac{1}{2}$ ) inches wide, free from shakes, rot, wane or worm-holes.

No. 2—Same length as No. 1, may be less than three-eighths ( $\frac{3}{8}$ ) of an inch thick, and must be not less than one and a quarter ( $1\frac{1}{4}$ ) inches wide, will admit of wane and worm-holes not to exceed ten pieces in a bundle of one hundred.

*Culls*—All that will not pass in the above qualities.

---

RESOLUTIONS OF THE BOARD.

---

*Resolved*, That it is the intention of the Board that these Rules of Inspection shall apply only to the selling and buying of lumber afloat or unassorted, and not to yards selling to the trade and to consumers generally, unless otherwise provided by special agreement between parties.

*Resolved*, That all Inspectors who inspect lumber under the foregoing rules in this market, shall mark the quality and quantity upon all lumber so inspected, when required by either buyer or seller.

*Resolved*, That the following fees be paid Inspectors for inspecting, measuring and tallying lumber under the foregoing rules, to-wit: 25 cents for 1,000 feet for measuring and tallying one quality; 30 cents per 1,000 feet for measuring, tallying and inspecting two qualities; 35 cents per 1,000 feet for three or four qualities, and 40 cents per 1,000 feet for more than four qualities, with the addition of 5 cents per 1,000 feet for marking the quantity and quality of the lumber when required.

*Resolved*, That in no case shall mill culls be considered a quality for the purpose of increasing the inspection fee.

*Resolved*, That the cost of measuring, tallying and inspecting shall be paid equally by buyers and sellers.

*Resolved*, That it shall be the duty of Inspectors and Measurers to keep the original tally sheets at least for one year, and that said tally sheets shall at all times be accessible to any of the parties interested therein. A denial by any Inspector to exhibit such sheets, when called upon by any of the parties interested, or any of the members of the Inspection Committee, shall be deemed sufficient cause for a revocation of his appointment certificate.

*Resolved*, That Inspectors and Measurers shall in all cases employ competent Tallymen, and that they should call out in quantities not over 60 feet, (in ordinary cases,) and be answered back by their Tallyman distinctly.

*Resolved*, That if any Inspector shall make out his certificate of inspection or tally, and return the same as correct, and it shall be afterward found incorrect, said Inspector shall be liable for all losses and damages accruing from such error to the parties interested.

*Resolved*, That Inspectors be required to draw twelve shingles from each end of each half thousand bunch, and six from each end of each quarter thousand bunch. That he be paid therefor 10 cents per 1,000, and required to put his brand on each bunch. That Inspectors be paid 5 cents per 1,000 for inspecting lath, according to the inspection rules adopted. For counting shingles without inspection the fee shall be 3 cents per 1,000. For counting lath without inspection the fee shall be 4 cents per 1,000. The inspection of these articles to be paid for as provided with regard to the inspection of lumber.

*Resolved*, That certificates for measuring lumber be granted to parties qualified, who may not be qualified as Inspectors.

*Resolved*, That Inspectors and Measurers be directed not to *intrude* between buyer and seller while sales are being made, and that persistent interference by any Inspector or Measurer shall be deemed a sufficient cause for the revocation of his certificate.

*Resolved*, That after an Inspector has received his instructions from both buyer and seller given together, he shall pay no attention to any different instructions or suggestions from either party given singly.

*Resolved*, That the buyers and sellers of lumber in Chicago market *pledge themselves* to employ the Inspectors and Measurers that obtain certificates from the Lumber Inspection Committee, and none others, when possible to obtain them.

*Resolved*, That Jesse Spaulding, Samuel A. Brown, Malcolm McDonald, R. K. Rickford and Samuel M. Jones are hereby constituted an advisory committee to the committee on lumber under the name of the Lumber Inspector Committee, whose duty it shall be to examine applicants, and recommend to the first named committee such persons as shall prove to be competent Inspectors or Measurers of lumber, and such committee shall then appoint such persons to be Inspectors or Measurers of lumber under the foregoing rule in this market. A majority of said Lumber Inspector Committee shall be sufficient to grant a recommendation, and also have power to recommend a revocation of such license or certificate, upon sufficient reason apparent thereto.

Said Lumber Inspector Committee, or a majority of them, shall also act as a Reference Committee, to whom all differences and complaints may be referred, subject, however, to the final decision of the Committee on Lumber.

Should any vacancy in the Lumber Inspector Committee arise from death, resignation or otherwise, it shall be filled by the Directors of the Board of Trade, on the recommendation of five dealers in lumber, together with the remaining members of the Lumber Inspector Committee.

## RATES OF INSPECTION.

ADOPTED BY THE BOARD OF TRADE MARCH 29, 1866.

### GRAIN.

For Inspecting Grain from Cars. per car.....	\$ .25
For Inspecting Grain aboard of Vessels, per M. bushels.....	.50
For Inspecting Grain from Canal Boat, per boat.....	1.25
For Inspecting Grain in Sacks, per bushel.....	.00 $\frac{1}{4}$
For Inspecting Grain into Sacks, per M. bushels.....	.50
For Inspecting Grain into Cars in bulk, per car .....	.50

### FISH.

For Inspecting, Unheading, Heading, Weighing, Repacking, Brining and Branding, per barrel.....	.20
For Inspecting, Unheading, Heading, Weighing, Repacking, Brining, per half barrel.....	.10
For Inspecting, Unheading, Heading, Weighing, Repacking, Brining, per barrel.....	.05
For each extra hoop.....	.02
For each extra head.....	.25

### FLOUR.

For Inspecting and Shipping, per barrel.....	.25
For Inspecting, per barrel... ..	.02

### PROVISIONS.

For Inspecting Beef and Pork, per barrel.....	1 00
For Inspecting Bulk Meats, per M. pounds.....	.25
For Inspecting Lard, Tallow and Grease, per barrel.....	.05

### HIGHWINES.

For Inspecting, per barrel.....	.08

## WEIGHMASTER'S TARIFF OF PRICES.

---

All Grain, Provisions, and other Produce, weighed by the wagon load, on large team scales, will be charged by the load . . . . . \$ .10  
Sundries, weighed on platform and beam scales, and handled at the expense of the Weighmaster, will be charged as follows :

Grain, Seed, Beans, Pulse and Potatoes, in bags, per 100 pounds . . . . .	.03
Sugar, in boxes and hogsheads, per 100 pounds . . . . .	.02
Salt, in sacks, per 100 pounds . . . . .	.02
Tobacco, in boxes and hogsheads, per 100 pounds . . . . .	.02
Pig Iron and Lead, per 100 pounds . . . . .	.02
Bulk Meats . . . . .	.02½
Broom Corn, in lots of 50, per bale . . . . .	.07
Broom Corn, in lots of less . . . . .	.08
Wool, per sack, in lots of 50 or more . . . . .	.07
Wool, per sack, in lots of less . . . . .	.08
Coal, per ton . . . . .	.06
Lard, Tallow, Grease and Stearine, in lots of 75 or more . . . . .	.05
Lard, Tallow, Grease and Stearine, in lots of 50 or more . . . . .	.06
Lard, Tallow, Grease and Stearine, in lots of 25 or more . . . . .	.07
Butter and Lard, in kegs . . . . .	.04
Dressed Hogs, each . . . . .	.04
Salt, Sugar, Dried Fruit, Beans, Potatoes, Hominy, Grits, etc., per barrel . . . . .	.04

The United States Government Stamp Tax will be charged on certificate, in addition to the above rates.

FLOUR.

Received for year ending March 31st, 1867, 2,022,060 barrels; manufactured by city mills, 452,528 barrels: total, 2,474,588 barrels—an increase in receipts of 468,168 barrels, and in city manufacture of 150,752 barrels; total gain of 618,920 barrels over the previous year. The stock in store March 31st, 1866, was 23,616 barrels, which, added to the above, gives a total of 2,498,204 barrels. The shipments for the year were 2,197,887 barrels—an excess of 673,911 barrels over the previous year. The stock in store March 31st, 1867, 62,693 barrels, which, added to shipments, leaves 237,724 barrels for city consumption, or about one barrel per head of population for the year. By referring to our table of prices, it will be seen that the yearly average price has been \$10 19@ 12 12 per barrel.

The failure of the Wheat crop in 1866 throughout Indiana, Ohio and other large Wheat producing States, rendered them dependent upon our market for supplies of Flour, and the figures given above show how ample has been our ability to meet all demands made upon us. During the year, large additions have been made to the manufacturing capacity of our city mills, and we can now boast of possessing the finest establishments of the kind in the Western country. The standing of our city ground Spring Wheat Flour has also greatly improved in public favor—our high grade extras now ranking first among fancy spring brands.

WHEAT.

By referring to our table below, it will be seen that the receipts for the business year ending March 31st, 1867, were 12,286,287 bushels, exclusive of 15,000 bushels estimated as brought in by farmers' teams, giving a total of 12,301,287 bushels against 9,242,108 bushels for the previous year, showing an increase of 3,059,179 bushels. The shipments have been 10,341,549 bushels, an excess of 2,242,581 bushels over the year ending March 31st, 1866. The amount in store March 31st, 1866, was 1,075,602 bushels, which added to receipts gives a total of 18,376,889 bushels—deduct shipments, 10,341,549 bushels, also amount in store March 31st, 1867, 477,596 bushels, leaving 2,262,640 bushels for city millers.

The receipts, although much larger than during the preceding year, were far below what they would have been had the crop in Illinois, Iowa, and other tributary sections not been almost a total failure. During the year the extension of the Northwestern and other lines of railways in Iowa, Nebraska and other sections in the Northwest have thrown open a large section of the best wheat-growing country, and we may confidently expect that, with favorable crops the present season, we shall nearly or quite double those of the one just closed.

Receipts, at Chicago, of the last twelve Crops of Wheat.

CORN.

The receipts for year ending March 31st, 1867, were 33,929,632 bushels, showing an increase of 8,701,106 bushels over the previous business year ending March 31st, 1866, and 4,969,958 bushels greater than for the year 1861, which showed the largest amount ever received previous to the year just closed. The shipments for the year were 32,953,530 bushels, an increase over the year 1865 and '66 of 7,725,004 bushels.

The crop of 1865 was doubtless the heaviest ever grown in the country, but our large increase in receipts was mainly owing to the extension of a number of Western railways, which opened up a large section of country to our market which previously fed its surplus grain to stock for want of facilities for transporting it to market. The crop of 1866 was heavy, but the frost early in September greatly injured much of the late planting, and much of the new crop which has arrived was inferior in condition, the light supplies in the last at the close of lake navigation last December, enabled our dealers to send large supplies during the winter to New York and New England by railroad.

OATS.

Received for the year from all sources 10,833,981 bushels, against 10,393,936 bushels for the year previous. The shipments for the year were 9,564,223 bushels, leaving 1,524,473 bushels for city consumption, and 730,182 bushels in store March 31st, 1867. The shipments for the year ending March 31st, 1867, were 9,564,223 bushels against 10,598,061 bushels the previous year.

It will be seen by our tables given below, that the receipts the past year have exceeded those of any previous one, except that of 1864 and '65, when the extraordinary high prices, caused by the demand for government use, coupled with the depreciation in our paper money, caused unprecedented high prices, which induced producers to send unusual supplies to market. The crop last year was very much injured by the prevalence of wet and unfavorable weather during harvest, and the quality of the grain injured in consequence, but for this reason our receipts the past year would have been much greater. The average price for the year has been 35 52-100 cents per bushel.

\* The supply of No. 1 Oats was meagre on and after Sept. 29, and the sales subsequent to that date have been almost exclusively confined to the grade of No. 2, consequently the prices quoted are for No. 2 from that date.

*Monthly Shipments of Oats for the Year ending March 31, 1867.*

[illegible]

## R Y E.

The receipts for the year ending March 31st, 1867, including 20,000 bushels brought in by teams, were 1,703,925 bushels, showing a gain of 543,745 bushels over the preceding year. The shipments were 1,489,895 bushels, being an excess over the previous year of 467,695 bushels.

The unfavorable condition of the weather during the harvesting season of 1866, prevented many farmers from securing their crops in their usual good condition, yet the year's business shows a most gratifying increase over that of the preceding one. The depression in the value of corn during the spring and summer months of 1866, together with the absence of any considerable demand for distilling, seriously affected the value of Rye, and prices ruled low. Later in the season, as the damage to the Wheat crop by wet and Corn by frost, became fully known, the demand increased, and quotations appreciated in response to the advance in prices for other grains. We learn that the amount made into flour and consumed in bread has been largely increased by the exorbitant prices at which wheat flour has ruled during the year.

## BARLEY.

The deliveries for the year ending March 31st, 1867, were 1,834,418 bushels, against 1,667,668 bushels same time in 1865-6—an increase of 166,750 bushels. The shipments for the year were 1,398,528 bushels—an increase of 753,439 bushels over those for the corresponding year of 1865-6.

The crop of 1865 was deficient both in quantity and quality, rendering it necessary for our city brewers and malsters to import largely from Canada. The crop of 1866 was large, but the unfavorable weather during the harvest season rendered much of the grain unfit for making fine malt, yet notwithstanding this fact, and the large increase in the amount used by city brewers and malsters, our exports were very large. Canada, which the previous year had assisted in supplying us, was a liberal customer for our barley. During the year the malting facilities of our city have been largely increased, and the standard of our malt much improved. The shipments both by lake and rail to Eastern and Southern markets have been much larger than for any previous year in our history.

THE PROVISION TRADE.

The Provision Trade during the past season has been dragging for most articles of Hog Product—Bulk Meats excepted. The season opened with a declining market for Hogs, which was naturally followed by a falling market for the product till near the close, when the decreased receipts of Hogs gave a firmer tone, and prices partially recuperated. The business in Mess Pork and Lard has not been a satisfactory one, but the movement in Bulk Meats was quite active, and it was universally observed, both in this and other markets, that the consumptive demand for Sides and Shoulders was never better. Our City still retains its pr eminence as the greatest packing point in the world, and the largest provision market in the United States.

HOGS AND HOG PRODUCT.

The following table shows the receipts and shipments of Hogs at Chicago during the past nine years :

## PORK PACKING AT CHICAGO FOR THE YEAR 1866-7.

Herewith will be found the full particulars of the Pork Packing at this City, for the season of 1866-7. Our packers cut up 639,332 head, against 507,355 for the season previous, and 760,514 for the season of 1863-4. The average weight per head was nearly 1 lb. heavier, the yield of Lard  $2\frac{7}{8}$  lbs. more than last year. The number of houses engaged in the business was 42.

*Summary of the Pork Packing of 1866-7.*

## BEEF CATTLE AND BEEF PRODUCT.

The receipts of Beef Cattle for the year ending March 31, are 373,277 head, against 348,928 head for the year previous, showing an increase of 24,349 head. The shipments were 260,833 head against 310,444 for the year previous—a decrease of 49,611 head.

The Beef packing during the past season was very light, 25,998 head against 27,172 head for the season previous, a falling off of 1,174 head. This decrease was owing to the high price of cattle and the low figures for product, making it an utter impossibility to pack without sustaining a loss.

## THE LUMBER TRADE.

The receipts of Lumber during the past year were 730,057,168 feet, against 647,145,734 feet for the year previous, an increase of 82,911,434 feet. About five per cent. of the receipts were brought hither by Railroad from Indiana and Michigan—consisting mostly of hard wood Lumber. Notwithstanding that the receipts showed such a material increase, the trade was prosperous, and the market was very uniform throughout the season of navigation. The extension of Railroads to the far West is constantly opening up new sources of demand, and the trade must steadily increase each succeeding year.

The following table shows the stock on hand in this city on January 1st, for eleven years:

*Stock of Lumber, Lath, Shingles and Posts, on hand on the 1st of January, for Eleven Years.*

YEARS.	Lumber. Feet.	Lath. Pieces.	Shingles. Number.	Posts. Number.

HIGHWINES.

The trade in Highwines during the year ending March 31st shows a marked increase over that of the year previous—the amount made by the distillers in this county exhibiting an increase of 35,000 bbls. The great bulk of the wines handled on 'Change were sold in bond for export and shipment. The trade in free wines was very trifling, owing to the large offerings of the contraband article, which were sold at prices ranging from \$1 50@2 00 per gallon. The stock on hand at this date (July 1st), is estimated at 10,000 bbls.

DIRECT SHIPMENTS FROM CHICAGO TO LIVERPOOL.

The shipments from Chicago to Liverpool the past season have been small, as compared with former years. The heavy losses sustained by Provision Dealers during the last season, and the dull market in Liverpool, has greatly restricted the direct trade with Europe.

The following table shows the shipments of Provisions, Lard and Cheese, during the past winter, with route of shipment:

Shipments of Provisions, etc., from Chicago to Liverpool.

ROUTE.	Packages.	Tons.
European Express Line and National Navigation Company.....	8,688	1,778
Grand Trunk Railway.....	700	126
TOTAL.....	8,380	1,904

The opening rate of Freight from Chicago to Liverpool was 97 cents, advanced to \$1 00, and closed at 70 cents, in gold.

The average time from Chicago to Liverpool was less than thirty days.
